Advanced and reinvented to be user-friendly

Stabilized pin feeding action

Stable pin feeding action promises operator comfort, allowing smooth continuous tagging of up to 100 pins.

New design and color

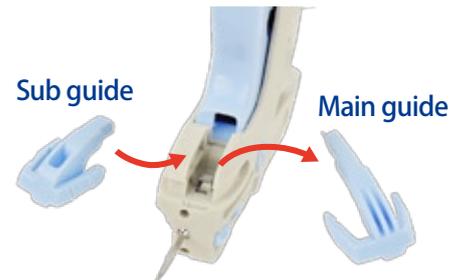

The excellently designed compact body ensuring high usability. Full lineup of 4 models to choose from according to your purpose of use. Each model now available in a new color.

Non-slip rubber

Slip-preventing rubber attached to sides of the tool avoids slipping and dropping of the tool from inclined surface.

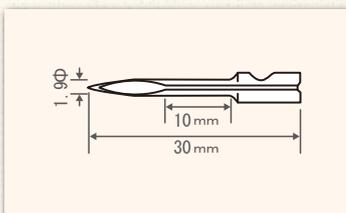

OPTION : Sub guide

Optional sub-guide allows the disposal of runner bars to be ejected from backward, rather than from downward as an ordinary tool. (for exclusive Bano'k pins)

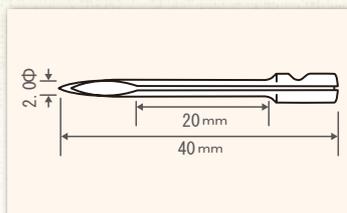

Exclusive spare needles for the Bano'k 503 series (3pcs per set)
